PL60
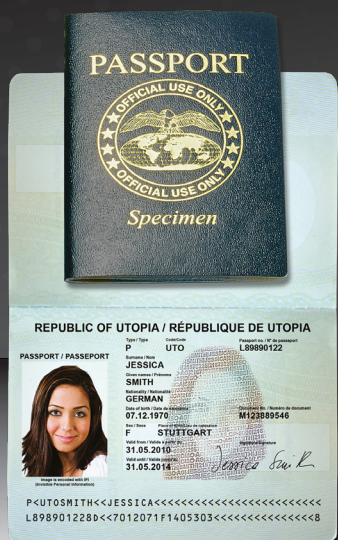

Compact, professional laminator for passport data pages

Matica's PL60 desktop laminator is a robust, compact solution for the **pouch lamination of passport data pages**. It is user friendly and easy to operate, with standard presets optimized for a perfect laminated finish. Both speed and temperature are also adjustable via an intuitive LCD interface.

The ICAO-compliant PL60 has been deployed in a number of passport issuance installations around the world and is typically used for **distributed passport issuance** from a local office or for **emergency passport issuance** from an embassy environment.

Easy to use	LCD display	Lamination speed	ICAO9303
Plug & print	READY	770mm per minute	Compliant

Specifications

Dimensions (W x L x H)
460mm x 270mm x 110mm

Weight
10kg

Lamination width (max.)
175mm

Laminating thickness
1.7mm to 3.5mm

Laminating speed
0 to 770mm/min

Operating temperature
0 - 160°C

Driving motor
DC geared

Control system
Steady voltage circuit DC control

Heating system
Infrared

Power supply
230V / 50Hz

Power consumption
500W

Global offices

Europe: Switzerland HQ, Italy, UK and Germany

Asia: Malaysia, China and India

USA: Minneapolis HQ, South Carolina and San Francisco

Middle East: Dubai
