MS1000

Cost effective solution for automated card mailing

The **MS1000** card mailing system is a simple and affordable solution for stand-alone automated card mailing and fulfilment applications. It comes as a pre-packaged solution including reading station, card on carrier application, folding and envelope insertion.

Easy to operate, the MS1000 comes with **pre-packaged software** for easy installation and configuration and offers a production speed of up to 1000 cards per hour to fulfil the demanding needs of central issuance programs.

Ideal for the issuance of **financial cards, loyalty cards and healthcare cards**, the MS1000 is capable of processing documents with up to four cards from two different hoppers from the tower feeder. Once the cards and carriers have been securely matched, they are passed to the folding and insertion station.

The unique **folding system** allows the carrier to be folded in C, V, or Z formats depending on the type of envelopes to be used. The MS1000 is a highly durable system designed and built for performance, reliability, and exceptional value.

MS1000 delivers...

- ▶ All-in-one reading, attachment, printing, folding, inserting system
- ▶ Ideal for small to medium volumes
- ▶ Preconfigured, dedicated PC using Maticard Pro software
- ▶ Reliable, robust design
- ▶ Affordable addition to any centralized system

Ideal for...

- ▶ Centralized financial, loyalty and healthcare card issuance schemes
- ▶ Mailing solution for global card distribution

Optional modules

- ▶ Card data reading station
- ▶ Pre-folded document feeder
- ▶ Envelope sized document feeder

Technical specifications

◤ Production

Speed

• Stand alone operation up to 1000 cph

◤ Handling

Card handling

• Input hopper: 600 cards for continuous production
• Reject card and carrier hoppers

Carrier paper handling

• Carrier formats: A4 and US letter sizes
• Up to 100 gsm paper thickness
• 4 cards per carrier

◤ Control

Console control

• Preconfigured, dedicated PC included using Maticard Pro

◤ Software

Software environment

• Maticard Pro for Windows® 8 and Windows 10
• Diagnostic and setup software included
• PCI-DSS compliant software

◤ Platform

Total dimensions

• L (card side): 1800mm (70.8")
• L (carrier side): 3750mm (147.6")
• Depth: 550mm (21.6")
• Height: 1400mm (55.1")

◤ Examples of carrier folds

• C Fold, V Fold, Z Fold
