## Reliable solution for high quality ID card personalization

Matica's **XID8300** is a versatile, durable and reliable printer with an established and renowned print engine. Its retransfer printing technology offers **consistent, crystal clear printing right over the edge of the card**. This indirect printing method also enables the XID8300 to print on variable surfaces found on contactless/contact chip cards and on multiple materials including PC (polycarbonate), PET and ABS cards, in addition to PVC.

Matica's XID8300 is available as a single or dual-sided printer with a bend remedy option to ensure card flatness. Its durability backed with a **3 year warranty** and its high capacity ribbons (1000 images) mean it is well suited to mid to high volume card issuance applications, including **access control cards or student ID cards**.

### XID8300 delivers...
